ABSTRACT

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and now is a part of the State Education Department's Basic Educational Data System. Tables are used to present: the racial/ethnic distribution of public school students, 1970-71; the distribution of Negro and Spanish-surnamed American public school students, 1970-71; percent distribution of public school students by racial/ethnic origin, 1966-67 through 1970-71; number of schools, and number and percent of minority students in schools of differing racial composition, 1970-71; number of schools, and number and percent of Negro students in schools of differing racial composition, 1970-71; number of schools, and number and percent of Spanish-surnamed American students in schools of differing racial composition, 1970-71; number of schools, and number and percent of "other" students in schools of differing racial composition, 1970-71; percent distribution of public school staff by racial/ethnic origin, 1970-71; and, percent distribution of public school staff by racial/ethnic origin, 1966-67 through 1970-71. Two appendices provide percent distribution of students and staff by racial/ethnic origin by school district, 1970-71. (JM)

INTRODUCTION

The collection of racial/ethnic data on the school population of New York State was initiated in 1961 with a census of public elementary schools. Since 1966 such information has been collected annually from all public elementary and secondary schools and is now a part of the Department's Basic Educational Data System. The information is used within the Education Department in providing a longitudinal record of school integration throughout the State.

Table 1 presents the 1970-71 racial/ethnic distribution of public school students for the State's "Big Six"* school districts (individually and combined), for the rest of the State and for the State as a whole. Examination of Table 1 shows, in part, that (1) excluding the "Big Six" cities, 5.1 percent of the students enrolled in New York State's public elementary and secondary schools are classified in the two major minority groupings--Negro and Spanish Surnamed American; (2) within New York City, 60.2 percent of the students are of a major minority group, and 38.3 percent are classified as "Other," i.e., neither Negro, Spanish Surnamed American, American Indian, nor Oriental; (3) in four of the State's six largest cities, over 30 percent of the students are classified as Negro.

Table 2 details the 1970-71 distribution of Negro and Spanish Surnamed American students by location in the State. It can be seen that of all public school Negro students in the State, 72.5 percent attend schools in New York City while an additional 10.5 percent attend schools in the other five major cities. Some 92 percent of the State's Spanish Surnamed American students attend schools in New York City.

Table 3 shows a percent distribution of public school students, by racial/ethnic origin, for the years 1966-67 through 1970-71. In the large cities of the State, the major minority group population of the public schools rose from 46.8 percent in 1966-67 to 56.4 percent in 1970-71. The increase was most pronounced in New York City where Negro and Spanish Surnamed American representation in the public schools rose 10 percentage points over the 5-year period. The next largest increase was in Rochester which showed an 8.8 percentage point rise.

Table 4 shows the number of schools and the number and percent of minority students (Negro and Spanish Surnamed American) in schools of differing racial composition, i.e., the percent of minority students in the school. Examination of table 4 shows, in part, that; (1) there are 723 schools in New York with no Negro or Spanish Surnamed American students; (2) there are 63 schools in which all students are of a major minority group and that the enrollment in these schools accounts for 7.3 percent of the State's total Negro and Spanish Surnamed American enrollment; (3) nearly three-quarters (74.5 percent) of the Negro and Spanish Surnamed American students in New York State's public schools attend a school that can be classified as a minority school, i.e., 50 percent or more of the students are Negro or Spanish Surnamed American.

Table 5 shows the number of schools and the number and percent of Negro students in schools of differing racial composition. Examination of

---

* Albany, Buffalo, New York, Rochester, Syracuse, Yonkers

table 5 shows, in part, that (1) there are 975 schools in New York with no Negro students; (2) there are 16 schools which are all black and that the enrollment in these schools accounts for 2.0 percent of the State's total Negro enrollment; (3) almost one-half (47.1 percent) of the Negro students in New York State's public schools attend a school that is predominantly black, i.e., 50 percent or more of the students are Negro.

Table 6 presents data similar to that of table 5 for Spanish Surnamed American students. It may be seen that while there are no "all Spanish" schools in the State, 43.8 percent of the Spanish Surnamed American students attend schools with enrollments that are predominantly (50 percent or more) of the same ethnic group.

Table 7 presents, in effect, the inverse of the data in Tables 5 and 6 by showing similar information for students classified as "Other," i.e., all students not classified as Negro, Spanish Surnamed American, American Indian, or Oriental. Of the 4,409 schools in New York State, 545 (12.4 percent) have no students classified in the four minority groupings mentioned above.

Table 8 shows the distribution of public school staff by racial/ethnic origin. Examination of this table in comparison with table 1 shows that, for the State as a whole, 24.6 percent of the students belong to one of the two major minority groups while 5.0 percent of the staff fall in these two categories. Similarly, for the "Big Six" cities, 56.4 percent of the students are Negro or Spanish Surnamed American while 9.9 percent of the staff are so identified.

Table 9 shows a percent distribution of public school staff, by racial/ethnic origin, for the years 1966-67 through 1970-71. The percent of minority group staff rose from 8.7 to 9.9 in the large cities of the State between 1966-67 and 1970-71. For the total State, minority groups increased from 4.0 percent of public school staff in 1966-67 to 5.0 percent in 1970-71.

Appendix A distributes public school students by racial/ethnic origin for each school district in the State. Appendix B distributes public school staff by racial/ethnic origin for each school district in the State.

APPENDIX B

PERCENT DISTRIBUTION OF PUBLIC SCHOOL STAFF
BY RACIAL/ETHNIC ORIGIN

1970-71

NOTE: "Public School Staff" includes all professional staff assigned full time to one school and excludes central office professional staff and those assigned to more than one school.

An asterisk (*) in the table indicates less than 0.1 percent.

School Districts are listed in school district code sequence within County (See: "Code Manual of Public School Districts in New York State.") Therefore, the popular names of districts are not in alphabetical order.
